DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed over the prior art.
2. The following is an examiner's statement of reasons for allowance: regarding claims 1 and 16, the primary reason for the allowance of the claim is due to a fixture for expansion cards comprising in combination a plurality of springs between a first and second connecting plate and a plurality of bolts attaching the second connecting plate to the first connecting plate. Since claims 2-8 depend off of claim 1 and claims 17-20 depend off of claim 16, they are also allowed.

Regarding claim 9, the primary reason for the allowance of the claim is due to a testing machine comprising in combination a movable board and a self-adjusting unit actuated by the movable board wherein the unit having a plurality of resilient members and plurality of bolts between a first and second connecting plates. Since claims 10-15 depends off of claim 9, they are also allowed.

The closest prior art to the claimed invention is cited on PTO-892. However, it would not be obvious to one of ordinary skill in the art taken alone or in combination to include the above statement of reasons for allowance in the prior art to get the desired results of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
